17 November 1958

MEMORANDUM FOR THE RECORD

SUBJECT: Granger Associates Countermeasures Reporter

25X1

1. On 16 November 1958 at 1730 hours, a phone call was received from Lt. [redacted] concerning the progress of the Granger program. [redacted] had talked to [redacted] by telephone. [redacted]

25X1

25X1

[redacted] and met in San Francisco to discuss the Granger program and to examine the data available from the Phase I and Phase II testing. It was suggested that on Thursday and Friday that the radar had malfunctioned. Examination of the data verified this to be true. Based on the results of the flight last Wednesday, [redacted] desires to fly one more Phase II flight on Thursday, 18 November. If these data agree with the Wednesday flight data, [redacted] will come to Washington later in the week to discuss the H&J jet capabilities.

2. Based on last Wednesday's flight, Mr. [redacted] and [redacted] predict no major changes to the Granger box. They believe this conclusion to be 75% correct.

25X1

3. [redacted] also wished to point out that to date all flights have been at an altitude optimum for the attacker. There may be significant differences when operating at the U-2 maximum altitude. Technically the explanation must be left up to [redacted] for engineering analysis.
